Each individual eye contains

Jimmy Carter, who served as the 39th President of the United States, is the only president from Georgia to date.
Born in the small town of Plains, he helped manage his family's peanut farm before getting involved in politics. The former Senator and Governor is also a high-profile proponent for the Georgia-based Habitat For Humanity.
At 98 years old, Carter is both the oldest living and longest-lived president, and his 76-year-long marriage makes him the longest-married president.

The world’s largest relief sculpture is located on the face of Stone Mountain. The figures of Confederate President Jefferson Davis and Generals Stonewall Jackson and Robert E. Lee are depicted as well as Lee’s horse, Traveler. The figures measure 90 by 190 feet, surrounded by a carved surface that covers three acres, it is larger than a football field. The carving is recessed 42 feet into the mountain. Work on the Carving began in 1915 and was completed in 1972.

You don’t need a driver’s license to compete in NASCAR.

Technically, a state’s driver’s license is not needed to compete in NASCAR. Even drivers who have had their actual driver licenses suspended for everything from reckless driving to DUIs were still able to race in NASCAR.

The beloved song
“Georgia on My Mind” was
written in 1930 by Hoagy
Carmichael and Stuart Gorrell.
But the tune is most commonly
associated with Albany GA
native Ray Charles, who
recorded it for his 1960 album,
“Genius Hits the Road.”
In 1979, it was designated as
Georgia’s official State Song.

Abraham Lincoln is in the Wrestling Hall of Fame. Defeated only once in approximately 300 matches, Lincoln reportedly talked a little smack in the ring. According to Carl Sandburg’s biography of Lincoln, Honest Abe once challenged an entire crowd of onlookers after dispatching an opponent: “I’m the big buck of this lick. If any of you want to try it, come on and whet your horns.”
There were no takers.

The first protestant Sunday school in America was started in Savannah by John Wesley in 1736.

The Altamaha River's drainage basin is about 14,000 square miles in size, qualifying it among the larger river basins of the US Atlantic coast. It is the largest river in Georgia and is reportedly the third-largest contributor of fresh water to the Atlantic Ocean from North America.
